NOTES.

File No. 1—2

FILE HEADING.

Calculation of the excess water charges of the K.G. Lock up & Cliff quarterly instead of monthly.

From The District Magistrate, Karachi (East) by Post

No. J.E. 475/2-23 Dated 29/30. 6. 1923 Received 2. 7. 23

Diary No. 18-P	Enclos. 1	Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

Requesting sanction to the proposal of the Lock up & K.G. to calculate the excess water charges of the K.G. & Lock Cliff quarterly instead monthly for the purpose of fixing the liability of the Officials for the excess water used by them.

NOTES AND ORDERS.

Under the practice in Bombay & Bengal to calculate the charges quarterly & not monthly. Perhaps the system in vogue in the K.G. & area is monthly calculation the Chief Engineer for irrigation may

Serial No.

be unofficially consulted in the matter and if he has no objection the recommendation may be sanctioned. —

Practice here is to examine the meter once a month, but calculate the quantity, if any, as appears. This appears to be reasonable as the water consumed in any particular month may exceed the free quantity allowed, in other months, may be very much less. The practice prevailing in Mg may be ascertained, and if it is found practicable may be changed to quarterly so far as the Lock-up & perhaps other quarters occupied by Govt servants are concerned.

Chief Secy.

Measurement Chief Engr for favour of remarks. (My question is a general one.)

4/7/23

Forwarded unofficially to the Chief Engineer for Irrigation, for favour of opinion.

Returned to CS
What are the Rules now.

2. The practice prevailing in the Kolar Gold Fields is to calculate the excess water charges monthly. When all the buildings are treated the way, it is not desirable to make an exception in the case of one particular building.

28-7-23

Chief Engineer for Irrigation.

Bangalore,
30th July 1923.

The proposal of the S.C. may not be approved of under the circumstances.

Genl Secy)

It appears to be undesirable to ... for a special treatment for the Lock-up Hall. As the prevailing practice on the Gold Fields is for the Excess charges being reckoned every month, it may be followed in the case of the Lock-up Hall also

FROM

S. HIRIANNAIYA, ESQ., M.A., B.L.,

Deputy Commissioner,

Kolar District.

JUL 1923

To

The Secretary to Government of Mysore,

General Department, Bangalore.

Adverting to Government order No:P.103-5/Pris.56-21-4 dated 5-7-22, in the matter of the free allowance of water to the Lock up Staff at K.G.F. cut at the rate of 1000 gallons per family per mensem, I have the honor to forward herewith, copy of K.G.F. Special Lock up Officer's letter No:59 dated 27-2-23, together with a copy of letter No:1203 dated 20-3-1923, received from the Executive Engineer, Water supply Division, Bangalore, stating that he has nothing to do with the proposal of the Special Lock up Officer, in the matter of calculating the water consumed by the families of the Lock up Staff, quarterly instead of monthly for the purpose of fixing the liability of the officials for the excess water used by them, and to state that the proposal made by the Lock Officer appears reasonable, and I therefore recommend the proposal for favour of kind sanction.

I have the honor to be,
S i r,
Your most obedient servant,

Chikkanna Venkatesha

Treasury Assistant Commissioner,
for District Magistrate,
Kolar District.
(absent from station.)

V.V.R.

Copy of letter No:1203 dated 20-3-1923 from the Executive Engineer Water Supply Division, to the District Magistrate, Kolar.

With reference to your No:J.C.476/22-23 of 9/10th March 1923, recommending that the demand on account of excess water consumed in lock up officials quarters at K.G.F. may be made quarterly instead of monthly, I have the honor to state that the District Magistrate may arrange with the officials as he thinks fit. This Department bills for water monthly, and as per Government orders has to be paid for all the water drawn and as such has nothing to do with the proposal. Under the circumstances, I request you that the amount outstanding against the lock up officials may be arranged to be sent to this office at a very early date.

Copy of letter No:59/27-2-1923 from the Special Lock up Officer, Kolar Gold Fields, to the District Magistrate, Kolar.

I have the honor to invite kind reference to Government Proceedings No:P.103-Pris.56-21-4 dated 5-7-1922, directing that charges on account of water consumed in the quarters of the Lock up officials up to the limit of 10,000 gallons per month and amounting to Rs.9-6 may be met from the contingent grant of this Lock up, charges on account of excess over this quantity being borne by the officials.

In practice it is found that in some months the consumption will be slightly more than 10,000 gallons while in other months it may be less than and there is at present no authority to set off the excess in one month against a saving in another month.

The officials having urged before me the desirability of making such a provision -- which I also consider to be reasonable -- I would suggest that the calculation of the excess to fix the liability of the officials -- may be made for a quarter instead of monthly, so that if there is no excess taking the whole of this period -- though in individual months there might be excess -- the officials would not be liable to pay.

I request that you will be so good as to recommend and get sanctioned this proppal, if it meets with your approval.

To

The Dy/Com^r + Dist: Magt
Kolar

Sir,

With reference to your letter No. JC. 475/20-25 Dated 29.6.20 regarding that the Consumption of water by the Lock up Staff be calculated quarterly instead of monthly for purposes of fixing the excess water charges, I am directed to state that the buildings in the Kg.F. Area are subjected to monthly calculation as the practice prevailing in the Kolar Gold Fields is to calculate the excess water charges monthly.
